

Mobile Events with Jumicar® Bristol

Jumicar® Bristol can come to your Corporate Event, School Fair, Village Fete or Town Festival. Whatever you are planning Jumicar® can give you something different to attract visitors. Children flock to the Jumicar® track and can't wait to have go at driving a real, petrol driven car.

Jumicar® can set up a track on grass or tarmac that includes road signs and a pedestrian crossing. Jumicar® is aimed at children aged 6 to 12 but younger children can ride as passengers.

Charges

For events where the children are provided with free entertainment Jumicar® Bristol charges the organisers £300 for a mobile event with 3 cars, or £250 for 2 cars.

For fund raising events, such as school fairs, we do not charge for attending but each driver and passenger pay for their rides. In the case of school fairs we can often contribute something towards the PTA funds. However, for this to work we require a minimum event duration of 4 hours.

The Jumicar Arena

Jumicar® will bring the following equipment :- 3 cars, barriers, road signs and safety fence.

The area required is approximately 20m x 25m of relatively flat ground.

The driving surface can be either grass or tarmac.

Car parking for a car and large trailer is also required. This does not have to be adjacent to the arena but the ability to unload alongside would be appreciated.
