

School Visits with Jumicar[®] Bristol

Jumicar[®] Bristol aims to teach children about road safety by letting them drive real, junior sized car around a practice road circuit. The circuit has road signs, roundabout, pedestrian crossing and traffic lights as well as several junctions with give way and stop lines. The children are taught to obey the rules of the road but are allowed to have fun at the same time.

Jumicar[®] can support the National Curriculum for Road Safety at Key Stages 1 and 2.

The following packages have been designed to be used by schools to widen their choice of teaching resources.

School Party visits Jumicar[®] Site at ASDA Walmart, Cribbs Causeway

If a school party visits Jumicar[®] Bristol the full practice road circuit is available with lots of junctions and road signs and have up to 8 cars running at the same time.

Charges £220 per day

1 year group, of up to 3 classes, could be taught during one day. Each class/group session would take about one hour and a half. If only one or two classes attend the sessions could be extended to provide more teaching and/or driving.

Jumicar[®] Bristol Visits School.

If Jumicar[®] Bristol visits a school a smaller track is used and the following equipment taken :- 3 cars, barriers, selection of road signs, pedestrian crossing and traffic lights.

The area required is approximately 15m x 25m and access to a 240V electricity supply would be useful but not essential.

The driving surface can be either grass or tarmac.

Car parking for a car and large trailer is also required. This does not have to be adjacent to the arena but the ability to unload alongside would be appreciated.

Charges £220 per day.

1 or 2 classes in a year group can be taught during one day. 3 classes would require 2 days.
